BUILDING CHAMPIONS: HIVE ATHLETICS CONTINUES TO GROW AND EXCEL!

HIVE Preparatory athletics continued to grow and achieve major success over the past year, highlighted by strong performances across multiple programs.

To start, the Elementary Basketball team had an outstanding season! The group took home the League Championship and secured the ISL League Title for the second consecutive year (2024 and 2025), continuing a dominant run for the program!

In just its second year, the Girls Middle School Volleyball team also had an impressive season, finishing with a 6-2 record and earning the #1 seed heading into the playoffs. The team went on to place second overall in the Middle School Girls Championship, marking a significant milestone for the young program.

HIVE's Middle School Boys Basketball team also had a strong showing, winning the North Division and finishing second overall in the league in 2024. This year, a new group of student-athletes will begin their season after spring break, continuing to build the future of the program.

In addition to team sports, the HIVE Dance Team continues to raise the bar and is currently preparing for upcoming competitions as they aim to secure another State Championship in 2026.

Overall, HIVE Preparatory athletics continues to build a culture of competition, teamwork and excellence, with students proudly representing the school across multiple sports.

APPLICATIONS FOR THE 2026-27 SCHOOL YEAR ARE STILL OPEN!

DEVELOPING SCIENTISTS: HIVE'S SCIENCE PROGRAMMING OFFERS HANDS-ON LEARNING

Thanks to HIVE Prep's partnership with Nature Posting's SCOPE (Scientists Conducting Observations, Procedures and Experiments) program, HIVE students have the opportunity to regularly see science come to life! From the hands-on experience of exploring plant anatomy with microscopes to classifying various species of sharks to meeting parakeets up close and personally, HIVE loves developing future scientists!

The SCOPE program is one of Nature Posting's specialty school programs that is specific to HIVE Prep. The program creates a Natural Sciences program within the curriculum with the purpose of building future scientists through discoveries, experiences, excursions and encounters. These amazing activities help students fall in love with all things nature and science by promoting environmental stewardship and citizen sciences.
